Subject: Transfer of Assembly Site from J-Devices Miyagi and Aizu Production Lines to J-Devices Hakodate and Fukuoka Factories for Select Analog and MCU Products

To: JAMIE PEDERSON

Change Type: Major

Description of Change:

Cypress announces transfer of assembly site from the J-Devices Miyagi and Aizu production lines to the J-Devices Hakodate and Fukuoka factories for select analog and MCU products. This change is driven by the J-Devices announcement to relocate the Miyagi and Aizu production lines to other J-Devices facilities.

Ball Grid Array (BGA) packaged products that are currently assembled at the Miyagi factory and tested at the Aizu factory will be assembled and tested at the Hakodate factory. Lead frame (LF) packaged products, including LQFPs, QFPs and SOPs, that are currently assembled at the Miyagi factory and tested at the Aizu factory will be assembled and tested at the Fukuoka factory.

In concert with these production relocations, we anticipate that some of BGA-packaged products undergo a change in the Bill of Materials (BOM). Qualifications are planned to occur throughout the year 2016 with implementation taking place in the year 2017. Once the qualifications have been completed they will be updated through revision of this PCN.

Benefit of Change:

Qualification of these new sites will serve as a preventive action that will enable Cypress to continue to meet its delivery commitments by having a continued supply from alternate qualified sources.

Affected Part Numbers: 975

Affected Parts

See the attached 'Affected Parts List' file for a list of all part numbers affected by this change. Note that any new parts that are introduced after the publication of this PCN will include all changes outlined in this PCN.

Qualification Status:

Qualifications are still ongoing. Once the qualifications have been completed they will be updated through revision of this PCN.

Sample Status:

Qualification samples are not built ahead of time for all part numbers affected by this change. Please review the attached 'Affected Parts List' file for a list of affected part numbers with their associated sample ordering part numbers. Sample requests for products without samples built ahead of time will be built to order and subject to standard lead times. Please contact your Sales Representative as soon as possible, but within 7 days of the date of this PCN, to place any sample orders.

Approximate Implementation Date:

Production at the J-Devices Hakodate and Fukuoka sites is expected to commence in the middle of 2017.

Anticipated Impact:

No impact is expected in datasheet parameters, package composition or package pin-out.

Method of Identification:

There will be changes to the part number with the transfer.

Response Required:

No response is required.
